Dear Mr. Hullinger:

On December 15, 1994 we received your Notice for mining in the SiO_2 claim area in T. 1 N., R. 6 W., Sections 28 (UMC 32696). Your Notice has been assigned serial numbers U-72294. Please refer to these numbers on any future correspondence.

The Notice meets the requirements of 43 CFR 3809.1-3 and has been accepted as properly filed. As provided in the regulations, you may commence the operations described in your Notice.

Regulations require that reclamation of all areas disturbed will be completed to the standards described, and reasonable measures will be taken to prevent unnecessary and undue degradation of the Federal lands during operations. Please notify this office when operations and subsequent reclamation are complete so that a follow-up inspection of the site can be made for closure. If your activities extend for more than one calendar year, or if you modify your operation from the original Notice, please notify this office.

Acceptance of this Notice will not now, or in the future, serve as a determination of the ownership or the validity of any mining claim to which it may relate.

Thank you for your cooperation. If you have any questions, or require additional information, please feel free to contact Cheryl Martinez of my staff at (801) 977-4300.

Sincerely,

/s/ Margaret Wyatt
